

THE HOLOCAUST WARS PROJECT
THE LIST OF GUIDANCE BOOKLETS

<u>BOOKLET</u>	<u>TITLE</u>
#1	Brief Glance at the Project Mission
#2	Brief Orientation
#3	Author's Angry Memorandum
#4	Summaries of Selected Manuscripts
#5	A Controversial Opinion – The Iran Deal (In the present geopolitical context)
#6	A Controversial Opinion – “The Not Essentially Sane” (Some humor was necessary ...)
#7	Author's Note: Musing About Blood Libels (A highly controversial opinion)
#8	Author's Note: Musing About “Interesting Stories”

“THE HOLOCAUST WARS PROJECT”

A BRIEF GLANCE AT THE PROJECT’S MISSION

Not all wars involve physical weapons.
Some “Intellectual Wars” are meaner and more criminally bent than physical wars.

The mean “Intellectual Wars” can leave a wake of awful ideological imprints in mind and psyche with lasting effects.

The Holocaust involves both types of wars occurring simultaneously and the wake is still smelly. Please buckle up

Written By: Jacob Sternberg (“JS”)
Significantly Assisted By: Christina Sternberg (“CTS”)
And By: Jacob Gostl (“JG”)

“THE HOLOCAUST WARS PROJECT”

PREFACE

This project, started decades ago, has the following mission:

1. Explain the worst crime against the Jews and humanity by virtue of what happened and how it happened.
2. Try to nail down “Why it happened?” – IT IS TIME!
3. Suggest that deposits are needed in the “Jewish Memory Bank” and the “Humanity’s Memory Bank” so that the dividends could be the diminution of repeated atrocities.
4. Given the seminal importance of the Centennial Memorial presentations, strongly recommend that the Memorials should not consist of just the horror tales alone and exhortations to remember.
5. Given the worst century in history (20th), the worst crime in history and the unimaginable malignancy of Totalitarian/Deterministic/Utopian mindsets, establish an intellectual base connecting mega atrocities with an umbilical cord to Totalitarian thoughts, deeds and to a horrendous wake of their deeds that has lasting effects.
6. Given the enormous effort (worldwide) already lasting nearly 80 years, near-infinite data, much data mining by stellar experts at stellar institutions, provide appropriate kudos and thanks.

To do all the above, this project generated:

- A. A vast “Knowledge Base.”
- B. A company to implement the mission’s dictats.
- C. A reasonably practical way to generate “Intellectual Products” and realistic practical suggestions to manage forecasted glitches.
- D. To enable a convenient access to the sizeable Knowledge Base, we provide (first) a brief orientation packet and, following that, we generate a Guide Book.

An article written by Jack Gostl for this project contains the following “Preface” for: “They Didn’t Just Go Quietly.” We just copy it here.

This article is about Jewish resistance during the Holocaust. It covers uprisings in the camps, partisan activities and more. It is by no means intended to be an exhaustive study of the topic, rather it is intended to punch a hole in the myth that all Jews meekly walked into gas chambers. It is an attempt to put down the victimology associated with Jews and World War 2. And as always, at least in what I write, there is a discussion of “the good guys.” The non-Jews who risked their lives to save Jewish lives.

We believe that in all memorials and educational programs the audience must:

- Get a pain and suffering tale so that tears will flow for the tormented dead and for the survivors whose lives were destroyed.
- Hear pain and suffering tales that impact the offspring (already three generations) for whom the tears are not enough and remembering with anger is helpful for numerous reasons.
- Hear tales of the tears and sorrow in which it is imperative to show that mere defiance is heroic in the face of the horrendous crimes of deranged criminals.
- Hear of the actual lethal heroic acts that were delivered by Jews with very meager means but enormous courage.
- Honor the incredible gentiles who received a well-earned “Jewish Medal of Honor” (many thousands of them) in the form of and the recognition of being “Righteous Among Nations.”

THE HOLOCAUST WARS PROJECT

INTRODUCTION

This project will be “housed” in a new company, to be shortly formed. The company – Project Gideon Company (“PGC”) – will be a warrior in the Holocaust Wars.

- Each year, in late spring, Jews around the world, pause and observe Yom Hashoah. Yom Hashoah commemorates the events and the murders that occurred during the Holocaust. We have always felt that it was appropriate that Yom Hashoah occur so close to the end of Passover since both commemorate the same type of event. A totalitarian state attempted to wipe out the Jewish people.

Arguably, for Jews in the United States, this is the best time and place it has ever been to be Jewish. Yet, when we draw a timeline from the events of Passover, through the Holocaust, today, we see that these good times are a small blip on a long timeline. This reemphasizes our belief that the underlying events of the Holocaust started well before the Nazis came to power, and unfortunately, many of those underlying events are long in the making.

At PGC we feel that it is important to understand these events.

- To adequately present this complex project, this introduction is initially limited to:
 - A quick glimpse of the top three Founders’ background. Detailed data re the Founders and assessment of PGC is presented elsewhere.
 - A brief summary of “What/How/Why” did the events happen, and, in summary form, assess the seeming consensus answers.
- Following this introduction, we will present a series of PGC-generated books, opinion pieces, critiques and implementation plans – together dubbed as “Intellectual Products” – to buttress the views we hold, argue about it with others, and where necessary, fight for our views.
- It is obvious that the entire “Explanation Train” requires a strong engine – we will clarify the mission and objectives, and where appropriate, our biases first.

THE HOLOCAUST WARS PROJECT

A QUICK GLANCE AT THE KEY FOUNDERS OF PGC

- Jacob Sternberg (“JS”)
 - Certified Holocaust Survivor
 - Former Israeli Paratroop Officer
 - Former Professor (Engineering, NYU-Poly)
Inventor, CEO of High-Tech Companies

- Christina Sternberg (“CTS”)
 - The daughter of a German world-class aerodynamics technologist
 - A granddaughter of “Privileged Jew” who died at Theresienstadt Concentration Camp.
 - An Accomplished Information Scientist
 - Professional Career Spans:
 - GE’s Hanford Atomic
 - GE’s Nuclear Research at Knolls Atomic
 - CBS and Shell (Research)
 - JS High-Tech Companies (Research)

- Jacob Gostl (“JG”)
 - A son of Holocaust survivors, both of whom had lifelong PTSD
 - An Accomplished Information Technologist
 - An Instructor of Computer Science at NYU
 - Founder of Several High-Tech Companies
 - TransVirtual Systems – Produced hardware and software to virtualize legacy hardware
 - Trusted Data Solutions -Performed large scale tape restorations and conversions
 - ARGOS Computer Systems – Voice response, communications front ends, financial service products
 - Large Communications Systems
 - American Express
 - ADP
 - Prudential Financial
 - And more
 - Currently President and CEO of Argos Systems
 - Former CEO of Trusted Data Solutions

All Three Have Real “Close and Personal” Interest in the Holocaust

THE HOLOCAUST WARS PROJECT

THE HOLOCAUST – COMMONLY HELD VIEW

The commonly held view of the Holocaust is that the Nazis killed Six Million Jews, and that the Jews went passively to their deaths. To fixate on this idea omits much of the Holocaust story and ignores its singularity.

PGC extended a significant effort in defining a more accurate and comprehensive view of the Holocaust events and the malignancy of the perps. The following is just a glance.

- Of the Six Million Jews killed, one million were children – a horrific crime in itself.
- Concentrating on the number of Jews killed ignores the plight of the millions of Jews forced to escape to a sanctuary country, going into hiding in a Nazi-controlled area, or joining a partisan group in the Polish/Russian woods.
- Relentless, calculated brutality pervaded every aspect of the Nazi operation. Mass starvation was used to weaken Jews into submission: random beatings and shootings were used to maximize terror.
- Vicious antisemitism by the Nazi regime corrupted the populations of countries under Nazi control. It encouraged ordinary citizens to beat, rob, blackmail, betray, and murder Jews.
- The Warsaw uprising was the most notable example of armed resistance by Jews. The fighting by Jewish partisans in the Polish/Russian forests was fierce and effective, having a significant impact on Nazi operations.
- Surviving the Holocaust required uncommon stamina, resilience, and will to live. Simply surviving was, a valiant form of resistance.
- The Nazis decreed that if a non-Jew who aided a Jew, the punishment was death to themselves and quite possibly to the entire family. Recognition by Israel of “The Righteous Among Nations,” (The “Jewish Medal of Honor”) as well as documentation on other individuals who aided Jews, is sizeable. That many ordinary individuals that risked their lives to help Jews is perhaps unprecedented in Jewish history.

THE HOLOCAUST WARS PROJECT

MISSION AND OBJECTIVES

This mega project will:

- EXPLAIN the Holocaust's Three Factual Aspects:
 - What happened
 - How did it happen
 - Why did the Holocaust occur
- Given the singularity and enormity of the crimes against Jews, and humanity, EXPLAIN what must be clearly and indelibly burned into Jewish and human memory. NOT ALL OF IT consists of a victims' complaint sheet. Much can be uplifting.
- Given an historic amount of time and energy by governments, academic institutions, and numerous civic and social organizations, EXPLAIN why after almost 80 years there has yet to be a definitive answer to the question "Why Did the Holocaust Occur?"
- EXPLAIN that accurate and verifiable memories pay important dividends. They help avoid the repetition of disastrous manmade atrocities. This project will provide *Professionally Generated* presentations of memorials and educational programs. These programs will assure that the events, when presented, be augmented by the many stories of heroic resistance of Jews and non-Jews.
- PGC will ATTEMPT TO PROVE that *Holocausts Don't Just Happen*. For a Holocaust to occur, it must be preceded by a lengthy period of pogroms, disasters, and genocides. Blood libels aggregated over two millennia coagulate to produce a hated target for a tribe spread all over the world.

PGC proposes that PGC's explanation of the Holocaust be a basis for a new consensus regarding the meaning of this term. The numerous, highly qualified experts in the major stellar institutions could easily improve PGC's definition.

THE HOLOCAUST WARS PROJECT

MISSION AND OBJECTIVES (CONTINUED)

- The PGC Founders will SHOW a lethal combination of:
 - World War I
 - A worldwide recession
 - The failure of the League of Nations
 - And the rise of the totalitarian monster in Germany that produced a unique political, economic, and intellectual sewer called Europe, a monster that was ripe and ready for a Holocaust.
- The Founders will SHOW that manmade disasters can happen anywhere to any population group, but a Holocaust happened only once and to a specific tribe – the Jews. We will SHOW that only a *Totalitarian/Deterministic* cult can create a Holocaust.
- The crime scene, primarily Europe, has undergone three world wars, the last against the Socialist Revolutionary Totalitarian cult lasting 46 years (1945-1991) – the worst ever in all suffering categories, dead and wounded in body and mind, dislocated populations, subjugated populations, severe impoverished countries and populations, and a viral set of diseased totalitarian maniacal mindsets and its worshippers.
- A difficult task will be assumed by the Founders, the task of proving the enormous U.S. effort to be the best imaginable sheriff in a continent repeatedly “gone to the dogs” (excluding Denmark and Great Britain under Churchill’s leadership).
- The project will not avoid STRESSING the umbilical cord connecting Jews anywhere to Israel – the wonderous country that rose from the Holocaust ashes.
- One of the strangest Holocaust wars to be AGGRESSIVELY FOUGHT by PGC will be against Jewish organizations which label Israel an “apartheid country.” A blasphemous blood libel.

THE HOLOCAUST WARS PROJECT

MISSION AND OBJECTIVES (CONTINUED)

- The founders of PGC believe that well-planned, professionally prepared centennial presentations, will provide “deposits” into the “Jewish Memory Bank.” These deposits will also SHOW other aggrieved populations the empathy the Jews feel towards their plight.
- The Founders expect to stress in its explanations efforts the obnoxious role played by the 20th Century eugenics and psychiatric cartels in the Holocaust’s occurrence.
- Given the incredible dysfunctionality of the U.N., PGC will RECOMMEND TO ALL WHO’D LISTEN TO STRONGLY FIGHT against any tendency for centennial memorials under the umbrella of a feckless, useless organization.
- PGC will strongly aim to provide “Intellectual Products” to impact the Jewish young to grasp that NEVER AGAIN WILL THE JEW BE A HELPLESS VICTIM KICKED AROUND.

The Holocaust Wars Project will launch PGC – Project Gideon Company – using “Gideon” in its name. Who was Gideon? You ask.

Just a Quick Glance

3274 Years Ago (1252 B.C.E.)

- Gideon was an Israelite Chieftain, a Judge and a Prophet.
- Gideon’s life is recorded in Judges 6:11-8:32.
- Gideon went to war with just 300 men.
- His enemy was described as “thick as locusts” with “camels as numerous as grains of sand on the seashore.”
- He solidly thumped them.
- It is important to remind one and all that Jews are not here to be kicked around anymore!

NOT NOW AND NEVER AGAIN!
