

## KEY IMPORTANT BACKGROUND QUESTIONS IN NEED OF ANSWERS

There are numerous questions, they fall into the following categories:

A. What made the Holocaust the worst crime in history against the Jews by virtue of WHAT was done by the Nazis, the worst crime against humanity by virtue of HOW they did it and a nearly-inexplicable set of events by virtue of WHY they did it.

B. What made the 20<sup>th</sup> Century Europe the worst century in history, an intellectual sewer with three world wars? Yes, THREE, includes the hot, tepid and cold wars generated by the utopian Soviet cultist (lasting 1945-1991) covering all continents.

Minor Fascists, an economic depression and colossal failures by the League of Nations gladly contributed their poison to make Europe ready for the Holocaust and other disasters.

C. What made the U.S., a colossal economic and military power, become the primary (and maybe the only) victor of WWI, WWII and WWIII, never subjugating anyone, never asking for repayment of its humongous economic and casualties investments propping up wounded Allies and obnoxious enemies.

What makes the U.S. a tired sheriff in a dangerous world in the first quarter of the 21<sup>st</sup> Century?

D. What makes the 21<sup>st</sup> Century nearly ripe for wars of civilizations with highly dangerous superpowers itching for dominance?

(Mao's 100-year plan is likely to succeed ahead of his schedule, the revenge seeking Russian wannabe an empire again, grieving remnants of the former Soviet Empire who are seeking to join another supplier, the asylum state of N. Korea, Iranians with a bomb in love with Armageddon potential and, as usual, European appeasers.)

E. What causes Israel derangement by known Israel haters and by some “Respectable” Jewish intelligencia spouting blood libels (“Apartheid State,” BDS)?

The above questions’ categories spread a wide net to catch the answers that might help to foster actions to minimize (somewhat, at least) the chances of repetition.

The answer to these questions can be obtained, via the website, which permits browsing through the multiple booklets (single issue papers) and the opinion pieces.

The website allows the browser to print some papers.
