## THE HOLOCAUST WAKE'S REFUSE

### HINTS OF THE HOLOCAUST WAKE'S REFUSE

The Holocaust Wars Book **recognizes that, for over seven decades, the Holocaust events have been the subject of research unlike any other, performed by stellar institutions, worldwide. Thus, it:**

- Pays Enormous Respect to the Greatest Intellectual Research Project Ever.  
It Highlights the Clear Answers Provided re: What Happened in the Holocaust Events and How it was Executed.
- Politely Highlights PGC's view re: The Unsatisfactory Answer to Why Did the Holocaust Happen.
- Speculates About Several Reasons for PGC's Dissatisfaction.
- Presents **PGC's suggestion re** How the Holocaust Should be Memorialized.
- Presents serious Holocaust Wars as PGC sees them.

- A Paper Titled: “THE HOLOCAUST” written by a PGC founder – Christina Sternberg (“CTS”) – provides an unobstructed view of the world’s worst crime ever.
- CTS draws key conclusion, some of which are controversial. For instance, focusing on the Nazi sole justification for the Holocaust’s occurrence being unsatisfactory “Purity of the Aryan blood, requires extermination of Jews.”
- Logically, suggested avenues are not hard to imagine.
  - ▲ “Work the Problem Backwards.” Rewind a dream tape.
    - Imagine you are any of Stalin, Mao, Hitler, Pol Pot, Saddam, Assad, Khomeini, etc.
    - If you are Hitler and you are victorious, look around, Europe is pacified (Life in Vichy France is “Normal”), Slavs are physically fit to work that requires exertion. They were always docile and obeyed authority. Their wages are quite “reasonable” (I.G. Farben loves that). The feeble minded have been eliminated, so were the Homosexuals (the SA had many of them and they have been “taken care of”). Europe is “Judenrein” (clean of Jews). No more cheating “Money Bags” around. The

big European empires are gone and their “upper classes like the Ordnung we bring.”

- Having a fine drink, you lounge on your favorite chair at the mountain lair and recount how you got here. It wasn't just Europe you pacified. It didn't take long to pacify America, Africa and Asia. That is a long story, for another enjoyable “Lounge and Dream” session.

▲ Keep rewinding the tape. Rewind all the way back to the beginning. As Hitler,

you were a victim of World War I (“WWI”). The dumb old Habsburg Empire didn't understand that they are Germans, that Germany has a destiny and you will realize this destiny.

The Kaiser doesn't know how to get an empire going but you do ... you dream.

- In your dream, a very clear picture of a German Reich appeared. To make it happen, you decided that it will happen only if serious blood will be spilled. You must defeat these damn “Socialists” (They don't understand what it really means). They need to be defeated soundly and you know how. Your dream presents fine pictures of patriotic youth (now unemployed), who look to be led (by you, of

course) who are supplied with a vision of blonde, blue-eyed party members (married to beautiful Mädchen bearing beautiful babies) marching to stirring martial music.

- This “Shaggy Dog” story could continue, you say to yourself, and it always

pleases your soul. However, it is time to disclose what really came next. For great men, there is always a eureka moment. Yours was a novel discovery that you must unite all the good Germans (like you), give them a big dream (like yours) and a heroic future, instill hatred to a common enemy – first the dumb Prussian military and a gaggle of industrialists who don’t appreciate people like you.

- But, way before that, you must defeat the damn Communists. Then and

only then, you can focus on and create a real focused Total War against an enemy which you will annihilate – the Jews. Besides funny and dirty clothes, they have unkempt appearance, cheating practices, dirty thoughts and Communist tendencies

and a long history of intermingling with local populations all over Europe generating mixed race offspring. Many of them kill children and use their blood for crazy rituals.

- You know that your people need an enemy to hate, an enemy easy to hate,

an enemy spread all over and one who could be exterminated.

- Once internalized, this idea requires backup (“Justification”). You know

quite well that the upper strata of psychologists, psychiatrists, eugenics geniuses would like to play the game of improving “humanity.” Well, what better way is there than ridding the world of “subhumans.” They can prove it mathematically. You will finance these cartels (guys like Rüdén). One of these cartel members told you that the U.S. President (Wilson), the crazy playwright (G.B. Shaw) and a relative of Darwin, are in our thought wavelength. Eliminating German Communists then Jews will provide proven scientific ways to eliminate vast hordes of subhumans.

- Once you justify it, you can make it all legal. This will make the learned crowd a satisfied cadre of followers. The action plan will follow ...

▲ “Working the Problem Backwards” is one way to search and unearth the cause(s) for the Holocaust’s occurrence.

Another straightforward way is to examine the intellectual refuse left in Europe by two major culprits who were defeated. This highway has many exit ramps.

▲ Consider:

- To what extent did the European appeasers in the 1930’s contribute to the initiation and execution of the Holocaust atrocities. The simplest lesson might be to cease appeasing bullies. Easy to state, very difficult to do. But an exit (“non-appeasement,” exit 1) must/should/could be dissected.
- Same question could be directed re the Soviet atrocity of starving millions of Ukrainians in the 1930’s.
- The levels of appeasement of the Soviet Empire Post WWII was enormous which allowed numerous atrocities to occur worldwide. WWII was a war by proxies, on every continent. The Soviets, smarter than

the Nazis, knew how to “cloak” the atrocities they assisted to occur in multiple ways, by impacting “Fifth Column” parties internally in many countries and by its effectively making the U.N., and international bodies, nearly dysfunctional.

▲ Examining the effects of appeasements on the frequency and depth of atrocities

carries well over the 21<sup>st</sup> Century. To wit:

- China commits daily major atrocities in Tibet, Szechwan Province, infanticides of female babies, slave labor camps, worldwide distribution of deadly drugs, “Motherhood” of the North Korean asylum and numerous economic crimes, IS WIDELY ENCOURAGED BY NUMEROUS APPEASERS.

Having missed learning the effects of numerous major appeasements in

the near past, provides unusual incentives to exploit this factor.

- It is obviously difficult to handle this factor. But FEW, REAL “RED-LINES”

might teach all concerned to minimize  
convenient appeasements.

For instance: No Nukes for Iran. They seek  
Armageddon and are serious  
re: “Final Solution.”

Alternately: Arrest John Kerry every time he  
advises Iran how to beat the

U.S.’ current pitiful negotiators (Don’t laugh,  
it is the Russians ...)

▲ There are additional highways to explore in the drive to uncover the real causes

for the Holocaust and mega atrocities occurrence.

- The unquestionably stellar researchers at government supported

institutions, stellar academics, think tanks and the like, seem to have never been asked some likely “killer” tabu questions.

- A sample question will be:

Why is the starvation of many millions in Ukraine in 1930's not a crime against humanity?

The Soviet Union is likely to point out that G. Britain let Irish starve, caused

massive migrations. It will further point out that G. Britain and France

created numerous colossal atrocities in their colonies, made several regions

(Mideast, N. Africa, S.E. Asia) ungovernable, created fictitious countries

with numerous wars and huge victims count.

Many government institutes are not willing to enter mud slinging debates.

Meticulous researchers don't adore such involvement, always ending with name calling.

It is also true that many researchers, when and if convinced by precisely

known facts, have the guts to confront the issue.

▲ A known detective's method to solve a crime is to keep examining the alleged perp's

past, his garbage (includes written and recorded), his relatives and friends and you all know this mantra.

Hence, is there a reason that the Holocaust's cause has not incorporated major

crimes against Jews in:

- Ukraine 1919 (right after WWI)
- Poland end of 1945 (right after WWII)

An obvious reason might be the pedantic, self-imposed confinement to the

time span end 1941 – mid 1945 when all major killings occurred. Any other exits need examination.

AND WE WILL TRY ...

## ONE MORE WHACK AT THE WAKE'S REFUSE

- We remind you that Project Gideon Company was Planned Decades Ago to attempt to achieve the following goals:
  1. Generate “Intellectual Products,” use and distribute them To Improve the Holocaust Memorials Presentations.

The “Improvement of the Presentations” which requires:

Instilling in the Presentations the following clarity:

▲ **Holocausts Don’t Just Happen**

A Long Chain of Atrocities and Genocides  
actually preceded them.

▲ **The Holocaust, the only one that did happen,  
is Umbilically Connected**

to Cults of the Totalitarian Regime which  
committed the singular worst mammoth crime  
against the Jews; AND

considering the means, that only Totalitarian  
cults can invent, committed crimes against  
humanity on an unimaginable scale.

▲ **The Holocaust, the only one that did happen,  
has left in its wake, a large**

**load of intellectual refuse (a.k.a. “Garbage”)  
in need of thorough treatment.**

The most important way of instilling the above with clarity, is via:

- ▲ Availability of professionally prepared intellectual products for Holocaust Memorials

Over decades now, Holocaust Memorials consisted of:

- (a) A pain/suffering section which had a survivor tell a frightfully very touching story
- (b) An invited speaker who told the audience to not forget what they heard and how important it is to prevent the reoccurrence
- (c) Sometimes a documentary is shown

The above is insufficient to instill anything lasting.

This Presentation will provide PGC's view of the minimally necessary "Intellectual Products" to be made and marketed.

ALL THE ABOVE DICTATE THE NEED TO MINE THE POST HOLOCAUST REFUSE, provide an improved definition of the Holocaust, generate background information to educate the young and improve our performance in the permanent war with Totalitarians who essentially cause them.

There is no way to overstate the importance of historical background materials needed to show that in the middle of atrocities **there were Numerous Instances of Heroism, “No Surrender to Evil” Stands, by Jews and courageous non-Jews.**

Hence, lowering the tears/pain and suffering portions of Memorials.

There is no way – whatsoever – to minimize the role of Israel, **a country coming out of the Holocaust ashes, and going to all corners of the globe to punish serious cultist**

“Bad Apples” who don’t sleep pleasantly in their own bed at night once they commit acts they know not to commit.

There is no way to minimize Israel’s contribution to the millions of Jews who escaped unfriendly countries and direct physical threats in ungovernable regions to find a home that embraced them.

Israel is a country that for 74 years has withstood constant physical attacks, insane U.N. resolutions, a wide and considerable array of boycotts and still managed to become a technological superpower.

There is no way to minimize the role of the U.S. in the security assurance for Israel.

The U.S. as the 20<sup>th</sup> Century Sheriff – providing the winners and losers of three world wars the chance of recovering their economies, securing trade routes, responding to every major natural calamity, defeating three successive colossal Totalitarian entanglements – the last and most vicious (defeating the Soviet Empire, after 46 years of real Soviet world dominance threat) – tired the Sheriff out.

The Sheriff is now tired, as many symptoms indicate.

The Sheriff's Allies (many instances, not all) are wobbly.

A New Alliance of Totalitarians (with old ideas) is emerging.

The Holocaust wake's Totalitarian-generated garbage has not been cleaned.

PGC believes that by mining this garbage, to better understand the Holocaust, help clean the refuse and help to defeat the educational cartel, the U.S. will lose some of the fatigue.

We can now move from theories to practical plans.

- Among the possible pillars that potentially could explain some of the Nazis' reasons for their unthinkable criminality is the psychiatric and eugenics cartels views and deeds sloshing in Europe and were increasing their activities with Hitler's financing of Rüdín.

A paper titled "Psychiatry and the Holocaust" prepared by Jack Gostl, deals with several clues to our fundamental suspicion about Nazis being unclear about why they caused the Holocaust.
